

### SQL Practice 3

Consider the following “Player” table and solve the queries.

Player_sl	name	Country	Run	Wicket	Batsman	Bowler
1	Sakib	Bd	5000	253	Yes	Yes
2	Tamim	Bd	7000	2	Yes	No
3	Kohli	Ind	6000	5	Yes	No
4	Morgan	Ire	3000	0	Yes	No
5	Mashrafee	Bd	1000	265	No	Yes
6	Anderson	Eng	600	467	No	Yes
7	Afridi	Pak	4000	360	Yes	Yes
8	Warner	Aus	7000	14	Yes	No

1. Create the table name “player” under the database name online2.
2. Display all the player name along with their country name.
3. Find top 3 wicket taker from Asian country.
4. Find all the all-rounder record who is either from Bangladesh or Pakistan.
5. Find all bowlers name with their number of wickets between 200-400.
6. Find the player country whose names are exactly 5 character long and starts with ‘S’.
7. Find the player name whose name start with a vowel.
8. Create a new column “Trophy” and update it with numeric value Zero up to first five player.
9. Update the runs (decrease 100 runs) of the particular players whose total run is above 3000.
10. Delete the player record who is from Ireland and more than 1000 run.
